### BOWYER-SINGLETON AWARDED SR 55 ECONFINA RIVER BRIDGE PROJECT

**Orlando, Fla. (May 5, 2011)** – Bowyer-Singleton, one of Florida's leading civil engineering and surveying firms, was recently awarded a contract to provide final design services for the SR 55 Econfina River Bridge replacement project in Taylor County by the Florida Department of Transportation, District Two. Services include Roadway Design, Bridge Design, Maintenance of Traffic, Signing & Pavement Marking, and Surveying & Mapping. This project has a 18-month schedule, with notice to proceed in April 2011. Bowyer-Singleton's management team for this project includes Don Hammack, P.E., Project Manager, Craig Noon, P.E., Senior Structural Engineer, and Dan Christie, P.E., Senior Roadway Engineer.

*Bowyer-Singleton & Associates, Inc., established in Orlando in 1972, provides expert services in Civil Engineering, Transportation Engineering, Environmental Sciences and Surveying & Mapping to transportation agencies, governmental agencies, land developers, engineering firms, and building and property owners throughout Florida. The firm is headquartered in Orlando, with regional offices in DeLand, Ocala, Jacksonville and the Tampa Bay area.*
